**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

It's a great day to be in Snowdonia, but high UV levels make sun protection essential.

Forecast for Sunday 02 Jun 2024

Weather: Overnight patchy cloud and some clear spells, with a chance of the cloud lowering onto northern slopes. Any low cloud, plus early valley mist and fog patches quickly clear to leave many places with a sunny morning. Through the afternoon cloudier conditions will gradually arrive, leaving a dry but cloudy evening.

Maximum wind: Northerly 10-15mph with gusts 20mph.

Chance of cloud-free hill tops above 800m: 95% although possibly 30% for northern slopes at first.

Low Cloud and visibility: Areas of low cloud are possible across northern areas at first, lowering to 400-500m, and then lifting through the morning. Perhaps some patchy cloud developing across the higher tops later in the afternoon and evening. Visibility good to very good, but poor or very poor at first in any mist or fog patches.

Temperature: **Valleys:** Plus 10 Celsius rising to Plus 15 Celsius.
At 800m: Plus 6 Celsius rising to Plus 9 Celsius.
Freezing level: Above all summits
